Angeles City, Pampanga

EDUCATION

2021-2024

HOLY ANGEL UNIVERSITY

- Bachelor of Science in Information Technology with area of Specialization in Web Development

SKILLS

- HTML/CSS/Javascript
- React
- Angular
- Node/Express
- MongoDB
- MySQL
- Git
- Linux
- Vim
- Photoshop
- Clip Studio Paint

PROFILE

Aspiring Web Developer with a strong foundation in HTML/CSS/Javascript. I am capable of working in a team either as a member or a leader.

I am able to communicate ideas easily. Eager to apply academic knowledge and skills to real-world web development projects.

WORK EXPERIENCE

● Hooli Software

JUL 2024 - OCT 2024

Software Engineering Intern

- Underwent front-end web development training specializing in React with common libraries such as Jotai, Axios, and React-Hook-Form.
- Learned how to use Version Control Systems like Git with collaborative development platforms like Jira and Bitbucket.
- Learned how to work with React components using and other libraries important for CRUD applications.
- Learned how to use Postman for querying data from the back-end through HTTP Requests.
- Learned communication and collaboration process within real-world software projects.

PROJECTS

● A Web Application System for Faculty Attendance Checking and Reporting for Holy Angel University

JAN 2024 - OCT 2024

- Created and tested a web application for faculty attendance checkers using React, Go, and MongoDB.

● Team GRASP's Robotics Project

MAY 2017 - JUNE 2018

- Handled network programming through Python in creating a remote-controlled robotic arm in the Guided Robotic Arm for Specific Procedures (GRASP) research.
