# ASPEN

Eurasian Lynx ♂  
Height: 5'5"  
Weight: 135lbs

Aspen is a Eurasian Lynx with a kindhearted demeanor and an effeminate figure to match. While he loves being a friend to others, he also adores sharing his hobbies and interests with those around him.

As is typical for a feline he does require some alone time on occasion, though is almost always in the mood for some form of cuddling or physical contact.
